### **BAY AREA CIRCUITS ANNOUNCES FACILITY EXPANSION IN HEART OF SILICON VALLEY**

**Open House including a factory tour planned for customers following exhibition at PCB West.**

**Santa Clara, CA , September 24-26<sup>th</sup>, 2013 – PCB West – Booth 619** – Bay Area Circuits, Inc., a leading manufacturer of quick-turn printed circuit boards (PCBs), today announced it has relocated to a 30,000 square foot manufacturing facility located in Fremont, CA. In addition to a significant increase in capacity, the additional manufacturing space will enable more in-house capabilities along with faster turnaround times; multi-layer projects will now be shipped in as quickly as 24 hours.

“This new facility will provide our customers with faster turn times, higher volumes and the quality they have come to expect from Bay Area Circuits.” said Stephen Garcia, VP of Operations. “Our expansion in Fremont allows us to stay close to our Silicon Valley customers while providing the capacity needed to effectively manage our growth.”

Bay Area Circuits had operated in Redwood City, CA since the company’s founding in 1975.

To commemorate the company’s relocation, Bay Area Circuits’ customers are invited for lunch and a tour of the new facility on Friday, September 27<sup>th</sup> during the company’s Open House. Anyone interested in attending is encouraged to contact their Bay Area Circuits sales representative.

Additionally, the company will be exhibiting at this week’s PCB West event in Santa Clara, CA. Attendees are encouraged to visit the Bay Area Circuits booth (#619) to learn more about the companies’ services, capabilities and free designer tools including PCB Creator, DFM Reporting, PCB Panelizer Tool, Gerber Viewer, PCB Array Calculator and DXF to Gerber Conversion Guide. All tools are available at no charge and can be accessed at [www.bayareacircuits.com](http://www.bayareacircuits.com).

#### **About Bay Area Circuits Inc.**

Founded in 1975 by the late Lawrence Nobriga, Bay Area Circuits has been serving the PCB manufacturing needs of high-tech electronics manufacturers, contract assemblers and design engineers for nearly 40 years. A focus on quick-turn prototyping and production leveraging innovative and high quality designs has made Bay Area Circuits the manufacturer of choice for customers around the world.
