

PRESS RELEASE - FOR IMMEDIATE RELEASE

BAY AREA CIRCUITS TO EXHIBIT AT DEL MAR ELECTRONICS & DESIGN SHOW

The company will also be joining Camtek Ltd. to co-host a seminar for PCB designers & enthusiasts on 3D functional inkjet printing of solder mask and legend on PCBs.

Silicon Valley, CA, April 28, 2015 – Bay Area Circuits, Inc., a leading quick-turn manufacturer of printed circuit boards (PCBs), announced it will be exhibiting at next week’s Del Mar Electronics & Design Show, held on May 6th & 7th at the Del Mar Fairgrounds in San Diego, CA, Booth #103. The company will be on hand to meet with its Southern California customers and share more about recent improvements to its manufacturing capabilities due to new equipment investments.

Bay Area Circuits will also co-host a seminar with Camtek Ltd., titled “3D Functional Inkjet Printing of Solder Mask and Legend on PCBs” on Wednesday, May 6th at 11am in Room D, adjacent to the Mexican Plaza in the Mission Towers. The seminar will educate PCB designers and enthusiasts on the benefits of this new technology including higher yields and greater design flexibility. Stephen Garcia, President of Bay Area Circuits, will be on hand to speak to the experience the company has had with its implementation of this technology and the benefits to both manufacturers and designers.

“We’re looking forward to exhibiting at the Del Mar Electronics & Design show again this year,” said Stephen Garcia, President of Bay Area Circuits. “Del Mar provides us with a valuable opportunity to meet with professionals from the Biotech, Medical and Telecommunications markets in Southern California; all industries of focus that are driving our growth.”
